Las Piñas

EDUCATION

2022-2026

Southville International School and Colleges

Bachelor of Science in Information Technology
Specialization in Information and Cybersecurity
Cum Laude

2020-2022

Holy Rosary Academy of Las Piñas City

Senior Highschool, STEM

SKILLS

- Programming (C#, Java, HTML, CSS, Python, Javascript, PHP)
 - Database Management (SQL Server)
 - Data Analysis and Visualization (Power BI)
-

CERTIFICATIONS & TRAININGS

- Microsoft Certified: Security, Compliance, and Identity Fundamentals (SC-900)
 - Microsoft Certified: Azure Fundamentals (AZ-900)
 - Google: Foundations of Project Management
 - IBM: Ethical Hacking
 - Cisco: Network Defense
 - Internet Society: Encryption Certificate
 - TOEIC (Test of English for International Communication) - Score 900/990
-

CONFERENCES

- PhYIGF Series (Philippine Youth Internet Governance Forum), 2023-2026 - 4 consecutive years attended, covering digital trust, emerging tech, and cybersecurity policy for Filipino youth
-

EXPERIENCE

IT Department Intern (OJT) - First Balfour, Inc.

- Built a Masterdata Management Application in React, Node.js/Express, and PostgreSQL to centralize employee and asset records, replacing a manual, spreadsheet-based process
 - Implemented role-based access control to secure data access across different user levels/departments
 - Developed a Master Data Dashboard reflecting employee details and hardware assignments, providing IT a better tracking system with a real-time view of equipment assignment
 - Added Excel data import functionality to streamline data migration/onboarding
-

PROJECTS

Capstone Project — Cloud Resiliency Management Dashboard (Solo Project)

Full-stack AWS infrastructure sandbox for cloud migration planning and resiliency testing, built with React 18/Vite, Node.js/Express, PostgreSQL/Prisma (Supabase), and Zustand; deployed on Vercel and Render.

- Designed an interactive topology canvas allowing users to visually build and simulate AWS infrastructure configurations
- Built a load balancing and capacity simulation engine with request type profiles and traffic-mix-derived metrics
